Size and structure of the school: The 6th Gymnasium of Volos (region of Magnesia- Central Greece) encompasses school year 7-9 and it has 29 teachers and about 215 students aged from 12 to 15.

Geographical and socio-economic environment of the school: The school is situated on the outskirts of the Municipality of Volos on a semi-urban neighbourhood on the north side of the city. The area is

Known as residence of blue-workers families and Roma camps. Both communities have a considerable pourcentage of unemployment during the recent economic crisis in Greece.

Description of what is done in the school of multicultural work and how migrant pupils are taken care of: From the students that attend 6th Gymnasium of Volos, about 3% are pupils who come from another country than Greece and 6% are Roma. Teachers haven't got any special education regarding teaching in multicultural/multilingual classes and there is not a permanent state structure in school to help pupils for whom Greek language is a second one.
